| Core                       | Fiber                                                                                                              |
| Finish                     | Bright                                                                                                             |
| Product Weight             | 3,300 lbs.                                                                                                         |
| Weight Per Foot            | 0.66                                                                                                               |
| Standards                  | Meets all dimensional and strength requirements of Federal Specification RR-W-410 (latest revision) and ASTM A1023 |
| Additional Info            | Right Hand Regular Lay                                                                                             |

SAFETY INFORMATION

- Never exceed the Working Load Limit (WLL). The WLL is the maximum load the product is rated to handle in service.
- Inspect before every use. Remove from service if cut, worn, abraded, stretched, cracked, bent, corroded, heat-damaged or missing its identification tag or marking.
- Protect webbing, rope and chain from sharp edges and corners with edge protection.
- Cargo securement on commercial vehicles must meet FMCSA 49 CFR Part 393, Subpart I (aggregate WLL and minimum tie-down rules).
